A pension of \$8 per month has recently been granted to Martha M. Woodward of West Auburn. Her husband, David Woodward, died five years ago, having served in the War of the Rebellion three years and returned with loss of health which he never fully regained.

Judging from the Massachusetts newspapers of the past and present, Dr. J. Cushing Gallison of Franklin is a formidable man in his campaign for a seat in that State's Senate. A remarkable pamphlet has been compiled from newspaper comments on his legislative career in the House of Representatives.

Killed by Being Run Over.
Frank Clark, son of Gorham Clark of Canton Point, was found dead at 5.30 p. m. Tuesday, about 100 feet above Gilbertville station on P. & F. R. R.

Coroner Fred A. Porter of Rumford Falls held a court of inquest over the body of Frank Clark, found dead on the Rumford Falls railroad track at Gilbertville station. The following jury were summoned: L. H. McCallister, B. F. Oldham, T. W. Newcomb, D. C. Waite, S. D. Ellis, W. E. Stanley, Verdict: That Frank Clark came to his death on the 24th day of September between the hours of five and six o'clock p. m., by being accidentally run over by train No. 4, on the Portland & Rumford Falls railroad, and that no blame is attached to that railroad company.

Illness of Secretary Long's Daughter.
Helen Long, daughter of Secretary of Navy John D. Long, who left Colorado Springs, Colo., Saturday, for Hingham, Mass., to visit her father, reached Denver in a state bordering on prostration. She was accompanied by her physician. Her sister, Margaret Long, was also of the party.

Miss Long went to Colorado Springs in November, 1898. She was then suffering from nervous prostration, with incipient pulmonary trouble. She has improved steadily, and so marked was her gain that a year ago her father bought a lot in a fashionable residence center and erected a 10-room house, at a cost of \$7,500. Six months ago the sisters moved into it.

Miss Long arrived in Chicago, Tuesday. She had stood the journey from Washington to meet the train and accompany his daughter to Massachusetts.

Fryeburg Fair.

Continued from page 1.
Wednesday, the second day. The weather was cold, but that did keep away people away. By 11 o'clock more people were on the grounds than ever before. Good judges say a thousand if not more, but the ticket office shows only a slight increase over last year. The amount of cash for tickets sold was \$1,160.

Financial Success.
Six years ago this society had a debt of \$2000, and they commenced to make extended improvements, including a covered grand stand, several new buildings and new fence. During this time \$3500 has been expended in permanent improvements. This sum and one thousand of the debt has been paid. This speaks well for the management of this society. Their present debt is \$1000 and undoubtedly this can be pretty nearly if not entirely wiped out, this year.

Midway Row of Workers.
There was the largest number in the midway row on the grounds. Their tents and teams lined the square almost from the gate to the grand stand and back to the hall.

Among them we notice a few only—Mrs. H. M. Beaumont, clairvoyant and scientific palinist; D. J. Doy of Bath, ball throwing; W. F. Dutch, Bangor, canes and rings; G. C. Poore of Brownfield takes photos, and there is another tent where pictures are taken by White & Dudley.

Among those who sell light drinks, food, peanuts, etc., are Chas. Halrich of Limerick, J. Frank Seavey of Stow, C. F. Haley of Fryeburg, F. S. Bradbury of Brownfield, H. H. Burbank of Fryeburg, C. T. Ladd of Fryeburg, J. J. Newers of Norway, J. R. Marvin of Center Bartlett, N. H., A. J. Parker of Bridgton, E. E. Taylor of Bartlett, N. H., E. N. Whittemore of Springvale, D. A. Hanson of Springvale, F. A. Niles of West Baldwin, W. W. Chute of Naples, W. E. Corliss of Freeport, A. Stain of Conway, A. D. Bridgman of Westbrook, N. K. Spinney of Sanford, Geo. E. Dalton of Jackson, N. H.

The above are only a few, a sample as it was. There are many others whose names we did not learn.
The merry-go-round of W. F. Chute of Casco is here and is doing a land office business. Chute is smiling as the nickels and dimes come in for every seat is occupied.

The misfit show is here, also the remnant goods man, the whip fakir from Westfield and the black ball dodger, etc.
It is the largest collection of this class ever on the grounds of the society.

Some of the Entries.
As a fair sample of how the entries come in we give a few of the numbers in the different classes. Of fruit and garden there are 82, bread and dairy products, 59; in exhibition hall, 120; miscellaneous articles, 15; drawings and paintings, 9; neat stock, 130. Every department shows the largest number of entries ever known.

Exhibition Hall.
There was never a better exhibit up stairs and down stairs. All the allotted room is taken. Corn, vegetables and fruit of the field is down stairs with many improved implements for butter making and planting.
Up stairs is the flney from the house. The room is taken. The east end of the hall is covered with oil paintings and sketches by the various artists in this section.

B. T. Newman has a fine exhibit of paintings, not for competition but for exhibit. His portrait Indian work on leather is exceptionally fine.
Louise Abbott has oil paintings and sketches, also Kate Abbott of Fryeburg. Pen and ink sketches by Clarence Stone are nicely executed. The school drawing of the 7-year-old son of Z. M. Bates of West Lovell is the only exhibit of the kind in the hall. It shows much skill.

A Big Herd of Stock.
J. L. Pendexter of the Mountain View Farm, Intervale, N. H., has his usual large exhibit. Earl of Mauk is two years old and stands at the head of his herd. Seven cows, ranging 3 three years old, 2 two year-olds, three yearlings, 3 calves and few bulls, all of which are St. Lamberts. Southdowns, Oxford Downs and Shropshire sheep. Berkshire and Ohio Improved Cheshires, one sow with and another with nine pigs.

E. L. Webster of Fryeburg occupies some of the stalls in Pendexter's shed with 20-weeks old calves and yearling heifers.

Wednesday's Races.
The starting judges were E. E. Wentworth of Springvale, Roscoe Knight and C. H. Walker, judges, with G. C. Tarbox, timer. The 2.27 with seven starters was interesting. Gladis Belle in the fourth heat drew the driver, and ran around track several times, but fortunately no injury was done to the crowd or to her driver, Joe Chaplin of Harrison.

Perley Hartford of Lovell was marshal.

Notes.
W. W. Kerrigan of Portland had his place of business sacked and no one captured by officers Tucker and Bassett. He claims it to be only of lawful 2 per cent. strength and a great injustice done him. Samples of the uno are at the secretary's office.

Miss Edith Emerson of Stow lost an open-face gold watch on the grounds, Wednesday. 'T would relieve her peace of mind if the finder would leave it where she could get it.

The telephone at the secretary's office is in almost constant use. It is very convenient and saves a few dimes. Ten cents is charged for any message.
Katie Abbott is entry clerk at the secretary's office and is kept busy with her duties here and reporting for the Argus and the Norway Advertiser.

Fryeburg Cornet Band, 16 men, with Will Bennett as leader, furnished music.

For the third year the society have had a special judge on cattle, swine, poultry and sheep. The judges, J. P. S. Jones of East Lebanon, N. H., is a specialist and gives good satisfaction.
Sheriff J. R. Tucker and State Detective A. P. Bassett of Norway were here to keep matters orderly, and up to this writing no arrests have been made. It is an orderly crowd and little effects of liquor are seen.

Freeman Hatch of Corinth who has passed his 88th birthday is an interested spectator about the grounds. He is interested in the Fryeburg Horse Railroad of which he owns 60 shares. Mr. Hatch is apparently as bright as a man of sixty years.

The carrying capacity of the horse railroad was well over taxed, Wednesday. Supt. W. H. Cousins says they recently bought two cars and with six cars running some were obliged to walk to the grounds from the depot. As the east and west trains cross at Fryeburg it brings all the business at one time, hence the trouble.

The Society runs the large eating room under the grand stand. It is in charge of E. F. Buzzard of Fryeburg with S. W. Fife who sells tickets. It was crowded from eleven o'clock to after one o'clock.

LYNCHVILLE.

An Excitement.
There was quite an excitement in this place, Monday afternoon and evening, caused by the sudden appearance and disappearance of an aged woman who appeared to be of unsound mind. She passed through North Waterford about five o'clock in the morning.

Eugene McKee has bought a span of horses of John Lord and he is teaming for Norway for L. H. Burnham, hauling heading. He goes three trips a week.

Lewis Ramsdell has moved his family to North Waterford in one of James Brown's rents. As he is clerking for W. S. Lord it will be better than living at Lynchville.

Silas McKee and his two sons, Eugene and Fred, are laying a cellar wall, cementing the cellar bottom and underpinning the house with stone. It will be a good job when done.

Will Rice and wife have moved to Tuner to run a hotel. It seems as though Will ought to do well as he always lived in a public house. His father ran the Forest House at North Waterford for years.

EAST HEBRON.

Jane M. Allen.
Jane M. Allen passed away, last Friday morning, after a long season of pain and suffering, which she bore with patience. On being asked if she did not want to recover, she replied "I should like it if I can but hardly know whether I can or not."

Rev. Mr. Munson and Rev. L. D. Tebbetts were present at the funeral on Saturday and each took a part in the exercises. Rev. Mr. Munson read several poems of his own composing that were very appropriate for the occasion. The remains were interred in the Lovell burial grounds. She was born and always lived in the house in which she died.

One sister, who lived with her, and three brothers still living—Hauden in Buckfield, Sidney in Auburn and Prof. Oscar D. Allen in Ashford, Wash. The brothers have done all that could be done to make the sisters happy so far as waiting and tending, and providing everything they could ask for.

Your correspondent made a mistake, last Sabbath, thinking it was Saturday and did not learn the mistake until quite an amount of work had been accomplished. A neighbor gave the right report just as the half-past ten bell rang. So much for working Sunday and not knowing the day of the week.

After the Fair Was Over.
Saturday, the grounds seemed deserted. Cattle all gone, sheep all gone, hogs all gone; dirt, old cardboard boxes, and loose paper everywhere. The tumult and the shouting of drivers and hawks had all died away. A few horses remained and of course a few of the horsemen.

Four fairs had not gone, but they were packing up. Heath will take a vacation with his merry-go-round and start it at North Waterford fair. Dow was the richer by six cents picked up on the ground. Elwell started for Canton with his frankfurter outfit. He says that the fair of 1901 was much the best one for his business that he has ever attended here.

The officers were holding a meeting in their room at the hall. The exhibition hall was dirty and cluttered like the grounds. A few of the exhibits had not been removed. A small but pretty bouquet was picked out of the remnants of flowers and brought back to adorn our sanctum.

Everywhere, after the noise and the crowds of three days, the premises seemed deserted and we felt lonesome. Good-bye to the Oxford County fair till 1902.

Eggs Served in Various Ways.

Eggs, although so closely related to meats in their food value are better adapted to the full round of seasons than the flesh of animals. In the early spring they begin to grow more plentiful and from then on until the appetite again inclines toward the grosser meats, the markets are well provided with an abundant supply of good fresh eggs.

An egg, of all foods, must be above suspicion, for the senses once offended by an ill-conditioned egg will never forgive the offender.

Eggs play a very important part in cooking aside from their employment as the principal dish of the meal and taking the place of meats, as they enter into an infinite variety of different dishes.

But considering them only as meat dishes we have a bewildering list to choose from so that if we cared to serve them more frequently than meats on our daily bill of fare it would take us a long time to exhaust the list. For breakfast dishes especially, we have a delightful assortment.

The Way to Boil an Egg.
From a housekeeper whose experience joined with common sense, has brought her much valuable knowledge, comes this bit of knowledge: The way to boil an egg is not to boil it at all. This may seem paradoxical, but is nevertheless true. Put the eggs in a wire basket with a handle, the frying basket will answer; then set the basket in a boiler and cover with water well with perfectly cold water, not warm or hot, but cold water; set the boiler over the fire where the water will heat quickly and let the water just come to a boil, but it must not boil at this particular time—not a moment later or sooner—remove the basket from the water and the eggs will be cooked just as they should be; spread a large dolly on a heated dish; lay the eggs on it, fold the corners of the dolly over the eggs and serve at once. Follow the directions to the letter, and when the eggs are broken and turned out of the shell, a la American, they will be just what you need, jelly leaving the shell clear and clean, the egg thoroughly cooked, tender and delicate.

Cupped Eggs.
Butter the requisite number of egg cups and carefully break a fresh egg into each; set the cups in a strainer over boiling water and cook until the whites are turned and set. Drop a bit of sweet, fresh butter on top of each and shake a pinch of minced parsley over the butter; serve at once.

Scalloped Eggs.
Moisten a cup of stale bread crumbs with cream or rich milk; put a layer in the bottom of a buttered dish; cover with a layer of sliced hard-boiled eggs; lay over bits of butter; season with white pepper and salt. Continue until the dish is filled; cover the top with fine bread crumbs moistened with butter and set in the oven to brown. Serve with cream sauce.

Runned Eggs.
Break six eggs into a bowl; add a teaspoon or melted butter, a tablespoon of milk, or two tablespoons of cream instead of butter and milk, and beat together until thoroughly mixed; then turn into a saucepan; set over boiling water and stir until the eggs are thick and creamy, season with pepper and salt and pour over hot buttered toast; garnish with a few sprigs of parsley and serve white hot.

Egg Cutlets.
Boil half a dozen eggs for at least 20 minutes; shell and cut them into lengthwise slices; when perfectly cold dip each into beaten egg seasoned with salt and pepper; then cover completely with bread crumbs in which has been mixed a little minced parsley. Fry these cutlets in hot fat sufficient to float them; arrange them on a hot dish with slices of grilled or pan-fried tomatoes and serve with bechamel sauce.

Fricassee Eggs.
Hard-boil six eggs. Put two level teaspoons of butter in a saucepan; when melted add two of flour and stir until smooth; add a cup of gravy or stock; season with salt and pepper to taste; add two minced mushrooms and a sprig of parsley minced; let the mushrooms cook for five minutes in the sauce if they are canned; if fresh cook them in the butter before the flour goes in. When the sauce is made slice the hard-boiled eggs
